

PROFESSIONAL CERTIFICATE

COST AND MANAGEMENT ACCOUNTING

This programme introduces managerial accounting with a focus on controlling inventory and overhead costs within a manufacturing environment. Students will master job costing, budgeting, standard costing, and process costing, alongside contract accounting and foundational financial management principles. This programme equips students with the essential analytical skills required for effective cost control and financial oversight in a production-based enterprise.

Program Outline

- Introduction to managerial accounting
- Controlling inventory and overhead costs
- Accounting for a manufacturing enterprise
- Job costing
- Budgeting and standard costing
- Contract accounting
- Process costing
- Financial management
